## COURSE DESCRIPTION

---

**Study Programme:** undergraduate graduate

**Type of the Course:** obligatory elective

**ECTS points:** 3

**Description:**

The objectives of the course Analytical Philosophy are the adoption of the analytical method in philosophy in general, which includes the adoption and application of a rational argumentative way of reasoning and responding to objections, and especially the concepts and central themes of 20th century analytical philosophy in historical terms. Topics: The concept of analysis in the history of philosophy; The notion of analysis in 20th century analytical philosophy; 20th Century Analytical Philosophers (G. Frege, G.E. Moore, B. Russell, L. Wittgenstein, Vienna Circle, Oxford School, W.O. Quine, P. Strawson); Philosophy of language: meaning; Analytical philosophy of mind: intentionality; Analytical metaphysics: the notion of existence.

**Course Learning Outcomes:**

The student will be able to: Define basic views on a variety of topics in analytical philosophy. Revise basic knowledge and attitudes in analytical philosophy. Illustrate the views of analytical philosophers. Argued to confront other philosophical directions.

**Programme Learning Outcomes:**

Critically evaluate the texts of important authors in the field of philosophy. Develop the skill of arguing one's own critical opinion. Formulate scientific hypotheses in the philosophical field.
